

# Transforming Education with Intelligent Data Services

**SPECIAL OFFER:** For a limited time, Metallic™ Office 365 Backup is available to educational institutions at a prime discount, making it even easier to safeguard your Office 365 data from ransomware, malicious attack, corruption and deletion. [Learn more](#)

## Prioritizing data as a strategic asset

Education institutes are transforming the way they use technology to meet the individual needs of students and empower educators to innovate ways of instruction in a complex technology landscape. Reliable data that can be quickly located, accessed, and shared without risk of damage or loss is key to these initiatives' long-term success.

## Digital transformation relies on data agility

As education institutes introduce new technology to support teaching and learning, the digital journey can get bumpy. Too often data becomes siloed, fragmented, and even left unprotected across an increasingly complex environment. Commvault can help solve tough data challenges across education institutes and provide the agility needed to:

Accelerate digital transformation to improve student and faculty experiences

Protect data on student, faculty, and staff endpoint devices

Modernize legacy data systems and applications

Reduce costs and simplify multi-vendor environments

Improve business continuity with cost-effective disaster recovery options

Protect data from ransomware and other cyberthreats

## Accelerating data-driven innovation in education

Gain the agility needed within the modern data environment to realize digital transformation goals.

### Improving operations

- Modernize and consolidate legacy systems
- Reduce data footprint and securely archive data
- Improve visibility and analysis of data
- Deliver trusted and secure student and faculty services

### Enhancing the learning experience

- Enable new digital student experiences
- Streamline learning systems
- Improve remote learning and resource access
- Protect sensitive student and research data

# Simplify data protection and management

[Commvault Intelligent Data Services](#) helps education institutes protect, manage, and recover data. AI-driven features and automation reduce compute, storage, and ongoing administrative costs to help IT groups better protect and govern sensitive student and faculty information access. As the data estate grows, Commvault solutions seamlessly scale to support interoperability and ensure data is secure, compliant, and always recoverable.

The agility Commvault enables is essential as education institutes take advantage of the cloud-scale predictive analytics, advanced AI, and workflow automation [Microsoft Education](#) offers to enhance student and faculty experiences while securing valuable education data.

## Commvault Intelligent Data Services

A unified, future-proof platform spanning the full life-cycle of data management, Commvault delivers data management solutions that seamlessly integrate and protect data, from legacy to modern workloads, regardless of where data resides.

### Data protection

Protect data at scale, unifying data management across hybrid/multi-cloud environments.

### Data security

Boost your data resilience with advanced, multi-layered protection, and rapid recovery from security threats including ransomware and data breaches.

### Data compliance and governance

Help ensure compliance with data access regulations and requests. Manage and remediate data risks, as part of a broader data governance strategy.

### Data transformation

Seamlessly move and repurpose data across environments for cloud migration, application modernization, and increased data access and connectivity for business users.

### Data insights

Use AI and ML-driven data insights to drive efficiency and cost savings across IT operations.

**“It’s clear to me that Commvault and Microsoft are committed to building increasingly integrated solutions that meet the scale and scope of my organization’s needs and requirements in a hybrid world. We’ve reduced our data center footprint and storage management overhead all while protecting thousands of virtual servers, applications and projects across our institution.”**

- Ronald Dowden, IT Unit Director, Johns Hopkins University

## Better together: Commvault + Microsoft

Commvault and Microsoft co-engineer Intelligent Data Management solutions to meet customers’ biggest data challenges and accelerate cloud adoption. Our 20+ year partnership offers specialized understanding of how to best architect solutions for Azure and integrate workloads to meet industry-specific requirements. Metallic® DPaaS, our SaaS-delivered portfolio of solutions built on Azure, is our latest innovation to help enterprises move faster and achieve more.

## Why Commvault

**11th consecutive year:** [2022 Gartner Magic Quadrant™ Leader for Enterprise Backup and Recovery Solutions](#)
