

Transforming Healthcare with Intelligent Data Services

Commvault Industry Brief: Healthcare and Life Sciences

Prioritizing data as a strategic asset

Digital innovation empowers the healthcare industry – from hospitals and pharmacies to life science companies – to reimagine the patient experience, transform operations, and accelerate clinical research. Reliable data that can be quickly located, accessed, and shared without risk of damage or loss is key to these initiatives’ long-term success.

Digital transformation relies on data agility

As healthcare organizations modernize their systems, embrace advanced technologies, and put cloud at the core of their transformation, the digital journey can get bumpy. Too often data becomes siloed, fragmented, and even left unprotected across an increasingly complex environment. Commvault can help solve tough data challenges across healthcare organizations:

- 

Improve compliance to HIPAA and other healthcare regulations
- 

Protect healthcare data from ransomware and other cyber threats
- 

Improve data availability to improve the quality of patient care
- 

Leverage advanced AI simplify and automate audits
- 

Reduce overall data costs with advanced healthcare data archiving
- 

Improve business continuity with cost-effective disaster recovery options

Accelerating data-driven innovation in healthcare

Gain the agility needed within the modern data environment to realize digital transformation goals.

Healthcare payor and provider

- Deliver trusted member experiences and enable personalized care
- Enhance care management capabilities
- Protect health information
- Reduce cost of care

Life sciences

- Enhance patient and provider experience
- Accelerate R&D innovation
- Protect health information
- Build operational agility
- Equip teams with better tools for customer engagement

Simplify data protection and management

Commvault Intelligent Data Services helps healthcare organizations simplify data management regardless of where it resides. AI-driven features and automation reduce compute, storage, and ongoing administrative costs to help IT groups better protect and govern sensitive patient information access across the organization. As the data estate grows, Commvault solutions seamlessly scale to support interoperability and ensure data is secure, compliant, and always recoverable.

The agility Commvault enables is essential as healthcare organizations take advantage of the cloud-scale predictive analytics, advanced AI, and work flow automation [Microsoft Cloud for Healthcare](#) offers to transform patient experiences and healthcare outcomes.

Commvault intelligent data services

A unified, future-proof platform spanning the full life-cycle of data management, Commvault delivers data management solutions that seamlessly integrate and protect data, from legacy to modern workloads, no matter where the data resides.

Data protection

Protect data at scale, unifying data management across hybrid/multi-cloud environments.

Data security

Boost your data resilience with advanced, multi-layered protection, and rapid recovery from security threats including ransomware and data breaches.

Data compliance and governance

Help ensure compliance with data access regulations and requests. Manage and remediate data risks, as part of a broader data governance strategy.

Data transformation

Seamlessly move and repurpose data across environments for cloud migration, application modernization, and increased data access and connectivity for business users.

Data insights

Use AI and ML-driven data insights to drive efficiency and cost savings across IT operations.

“With Commvault, we can reduce our reliance on physical servers and desktops, which means we can focus internal IT resources on supporting our researchers and customers.”

- Michael Catrini, Assistant Vice President, UConn Health

Better together: Commvault + Microsoft

Commvault and Microsoft co-engineer Intelligent Data Management solutions to meet customers' biggest data challenges and accelerate cloud adoption. Our 20+ year partnership offers specialized understanding of how to best architect solutions for Azure and integrate workloads to meet industry-specific requirements. Metallic® DPaaS, our SaaS-delivered portfolio of solutions built on Azure, is our latest innovation to help enterprises move faster and achieve more.

Why Commvault

11th consecutive year: [2022 Gartner Magic Quadrant™ Leader for Enterprise Backup and Recovery Solutions](#)
